Along with Zimbabwean music and arts we celebrate the beauty of the Palouse country of eastern Washington and north central Idaho.

THE PALOUSE

Tucked away in north central Idaho and southeast Washington, the Palouse is a geologic wonder unlike any other area. Home to two universities and one classical college, this area offers urban sophistication tucked between turn-back-the-clock towns. Rich in culture and arts, spirited college athletics, and abundant outdoor recreational opportunities, this area captivates travelers. They soon understand why this is one of the Northwest's most photographed regions. Enjoy!
